GENERAL

(INTRODUCTION & GENESIS OF THE PROBLEM AND IMPORTANCE AT CURRENT JUNCTURE)

North Eastern States : A Historical Perspective :-

The North Eastern States bordering **Tibet, Myanmar, Bangladesh, Bhutan, Nepal and China** are of vital strategic importance for the country. These states namely **Arunachal Pradesh, Assam, Meghalaya, Manipur, Mizoram, Nagaland, Sikkim and Tripura** are connected to main land India through a 21 km corridor called '**Siliguri corridor**'/ '**chicken neck**'. As per historical records at the time of independence from British rule in 1947, there were only three states called **Manipur, Tripura and Assam**. Further four new states were carved out of the original territory of Assam as part of the Policy of the Indian government of reorganizing the states along ethnic and Linguistic lines. Accordingly, **Nagaland** became a separate state **in 1963**, followed by **Meghalaya in 1972**. **Mizoram** became a Union Territory **in 1972**, and achieved statehood - along with **Arunachal Pradesh-in1987**. It is also notable here that for most of their history , North Eastern States were independent, and their complete integration with India came about only during the British period. Presently consisting of 08 states including **Sikkim**, the entire North East of India is a land of diverse ethnic and tribal culture where more than 125 major indigenous tribes and 232 ethnic groups live and they speak as many as 400 dialects. The total population of North East is approximately 3.07% of the total population of India.

A Critical Understanding of Insurgency Problems & other Issues:-

However, ever since independence, the people of the north-eastern states have been restive. This is because these states though they are rich in natural resources, have experienced little industrial or economic growth. Unemployment has caused frustration amongst the youth. Demographic changes threatened continuation of the special ethnic identity of these people as also their culture and traditions. In nut shell, this forest covered mountainous terrain having porous borders with many neighbouring countries , provides an ideal setting for the growth of insurgency .In fact ,there is rise of insurgent activities and regional movements in the northeast , especially in the states of Assam , Nagaland , Manipur, Mizoram and Tripura. Most of these organizations demand independent state status or increased regional autonomy and sovereignty.

Insurgency problem of North East is almost four decade old and amongst various groups involved in insurgency there are over 15 underground political organizations. Reportedly, The United Liberation Front of Assam(ULFA)formed in April 1979 & the National Democratic Front of Bodoland (NDFB)are active in Assam; the Peoples Liberation Army formed in 1978, the United National Liberation Front (UNLF) & Peoples Revolutionary Party of Kangleipak (PREPAK) are active in Manipur, the National Socialist Council of Nagaland (NSCN-IM) formed in1980 & the National Socialist Council of Nagaland-Khaplang (NSCN-K) are active in Nagaland; the National Liberation Front of Tripura formed in March 1989 & the All Tripura Tiger Force formed in 1990 are active in Tripura; the Achik National Volunteer Council (ANVC) formed in 1995 & the Hynniewtrep National Liberation Council (HNLC) are active in Meghalaya and the Hmar peoples Convention-Democracy formed in1995 & the Bru National Front (BNLF) formed in 1997 are active in Mizoram.

However, many of these underground organizations today are beset by gang rivalry. Internecine quarrelling among themselves continues for the control of tribes, geographical areas and for overall say in affairs of North Eastern States particularly Nagaland & Manipur. The factional fight amongst various insurgency groups has thus claimed many lives. The entire situation has been further aggravated by rising trends of ethnic violence. Kuki- Naga clashes have been going on since 1991 and other tribes like Dimasa & Mhar are also not living in Peace. Similarly many violent acts of ethnic cleansing have been committed in Assam ever since the insurgency started in the state.

Another major problem of North East happens to be vast influx of migration of people from various parts of India especially from West Bengal & Bihar and neighboring Bangladesh. In olden times this migration was promoted by British to carry out developmental activities but it has not stopped till date. This huge migration have changed the face of the North Eastern States considerably and set off a series of chain reactions from local tribal populace. For example, tribals accounted for 80% of the population of Tripura in 1949, today they account for the fewer than 30%. The situation is almost same in Assam which is a major cause of insurgency there.

In this situation handling of insurgency problem in North East from a military point of view may aggravate the situation further. Continuous security checks, combing operations, and counter protests, strikes etc not only hamper the economic progress but also deprive the people of their basic rights for Peace & Development. In absence of that the people then vent their anger by supporting extremists more. Extremists also try to destroy the very state

machinery that is supposed to provide socio-economic up-liftment. The more hardship caused to the common people the easier it is for the extremist to wedge a gap between the state and people, and the more it happens easier it gets for the extremists to recruit new cadre. More than security crack-down the extremists fear most is losing public sympathy. Hence any counter insurgency measure must include people especially youth.

Background of the NYKS proposal :-

Therefore, arresting insurgency in the region is the most important task for bringing development of the North Eastern region. One of the modest yet crucial inputs in bringing about a position change is to channelize the energy of the young people for **peace and development** as well as other nation building activities. Strategically speaking the role of North East Development Council (NEDC), NE Division of Ministry of Home Affairs, Government of India and Nehru Yuva Kendra Sangathan which is an autonomous body of Ministry of Youth Affairs & Sports is of Paramount importance towards creating situation whereby young person's will be motivated not to join militant groups but to join the mainstream of Nation development and participate in Nation Development, programmes and activities. At the same time special efforts will be made to provide Skill Development Training, leadership, Life Skills training, improved vocational skills, knowledge and information on socio- economic development, technological advancement, entrepreneurship and self employment avenues etc.

With this view Nehru Yuva Kendra Sangathan (NYKS) is implementing the project on North **East Youth Exchange Programme** with the task of extending facility to the youth of the North Eastern States for visiting important places of our nation, understanding its socio-economic development, skill development goal setting and time management, constitution of India, patriotism, unity and integration, leadership and personality development, interacting with the Civil Society, understanding history, culture and traditions of the different parts of the nation thereby inculcating in them with the feeling of nationalism, brotherhood, peace, harmony and developing leadership qualities amongst the North Eastern Youth for their overall empowerment.

AIMS & OBJECTIVES

- To provide opportunity to 6 North Eastern State youth to visit different places of the country to understand the socio-economic development, cultural ethos, language, lifestyles of the people depicting unity in diversity aspect of our national life and social and financial inclusion programmes of Govt.
- To provide information and knowledge on constitution of India, duties and responsibility of citizen, National Integration, Patriotism and Nation Development.
- To expose North Eastern State youth to the technological and industrial advancement that have taken place in different states of the country with focus on various developmental activities, skill development, educational & employment opportunities available there.
- To sensitize the North Eastern State youth about their rich and traditional cultural heritage and enable them to preserve it for the future generation.
- To help the North Eastern State youth to develop emotional linkages with their peer groups in other part of the country and enhance their self esteem.
- To provide opportunities to the participants for interactions with the local communities, Panchayati Raj Institutions and the youths affiliated with the NYKS Youth Clubs so as to develop emotional and cultural ties with the youth placed in similar life situation in different parts of the country.
- To develop personality of the North Eastern State youth by enhancing their understanding of Ten Core Life Skills, identify their skill development oriented training needs especially in the hospital related industry and fulfilment of their legitimate career aspirations through Employable Skills Scheme of Government of India and State Govt and provide them necessary guidance and career counselling.

CONCEPT AND METHODOLOGY

Unlike other parts of the country the North East holds an important position from a strategic point of view as these states share their borders with other countries like Bangladesh, Bhutan, Myanmar and China. The terrain, the state of Socio economic development and historical factors such as language/ethnicity, tribal rivalry, migration, control over local resources and a widespread feeling of exploitation and alienation have resulted in a fragile security situation in the North Eastern States. This has resulted in violence and diverse demands by various Indian Insurgent Groups (IIGs).

Ministry of Home Affairs is taking all possible steps to address the genuine demands of various ethnic groups for development and for autonomy in managing their affairs. While the infrastructural developments like road, rail link, power supply water supply etc. are dealt with by Ministry of Development of North Eastern Region and various other line Ministries, the issues relating to strengthening of security, rehabilitation of people affected by militancy, bringing underground outfits to the main-stream through negotiations, confidence building measures etc. are looked after by the North East Division. Diplomatic initiatives pertaining to security related issues with Bangladesh and Myanmar are also taken to strengthen the security situation there.

Because of above mention facts the youth who are residing in North Eastern States should be given opportunities to see the important places of the country to understand socio-economic development, life style, culture, skill development initiatives, entrepreneurship development, self employment opportunities and information on Flagship programmes of Govt. of India like Start up India, Stand up India, Digital India, Pradhan Mantri Jan Dhan Yojana, Programme of Social and Financial Inclusion etc. If the youth communities are getting sufficient information and opportunities to interact with their peer groups in other parts of the nation, the extremist activities among them can be curtailed and pace of development in the region will be accelerated with the participation of North Eastern States youth population in Nation Development Process. In this context it is proposed that, the North Eastern Youth should be positively engaged and educated and for that; North East Youth Exchange Programmes will be of great help.

Methodology
