## Operational Guidelines of National Integration Camps (2016-17)

**1. Background and Context**

We all know that national integration remains a crucial issue in India, notwithstanding the fact that we boast of a civilization, which is nearly 5000 years old. Some of the divisive factors may be inherent in the history, geography and culture of our country, but there are also forces, which accentuate these factors. Religious fundamentalism is one such force while linguistic diversities constitute another. There are people in this country who hold an exclusive view of religion, which drives them into a sectarian frenzy that does not admit tolerance of other faiths. Despite a shared culture of so many years, religious and linguistic diversities have often generated tensions and conflicts amongst different communities sometimes threaten the unity of our nation.

The same holds good for regionalism exacerbated no doubt by inequitable development amongst different regions of the country. The age – old caste system has also contributed in weakening the bond among different sections of the society. Not only that because of wide spread unemployment amongst youth they easily fall prey into the hands of anti social elements and terrorists. Moreover, the country has been witnessing criminal, naxal and terrorist activities in its different regions.

All the above divisive forces and factors do pose serious challenge and, therefore, conscious efforts will have to be made by all concerned to preserve India's unity and integrity. The youth of the country in particular will have to be put in the vanguard of such efforts.

In this backdrop 20 National Integration Camps at various places across the country have been planed during the year 2016-17 wherein 250 youths in each NICs from different regions and districts of all States/UTs, will come together and participate in multi fold activities for consecutive five days in each of these camps.

It has been considered imperatively essential to extend such an opportunity to the youth wherein they got opportunity to interact and share their views and experiences with other young men and women from different geographical, religious, linguistic, cultural background of the country. It would enable the young people to understand and enjoy the rich pluralistic diversities and also appreciate the underlying current of oneness and unity in these diversities.

It is expected that these camps will provide a platform where in youth share about the threats posed to the nation by divisive forces and workout the strategies for combating them. Besides, they also discuss about the youth situation, problems, developmental challenges and opportunities.

It is also expected that after attending the camp the participant youth will have a good understanding and perspective. They will understand that National Unity and Integrity is imperative for furtherance of democracy and development. In turn they resolve to put all efforts to promote Sadbhawna, peace and brotherhood and subsequently come together for strengthening democracy and development of the nation.

## **2. Aims and Objectives**

The basic aim of these camps is to create nationwide opportunities for largest ever participation of youth especially non student rural youth of India irrespective of their caste, creed, family background, sex, language, region, religion, custom, culture and tradition. Attempt will be on inculcation of spirit of unity, nationalism, brotherhood, feeling of proud to be Indian Citizen, scientific values amongst the youth as well as promote sadbhavna and peace in the country.

The broad objectives are as under:

- To create quality opportunity for young participants from different parts of the country to live, interact and learn together in an environment of mutual love and respect and also to understand and appreciate people living in different parts of the country
- To facilitate the participants to learn about the issue of National Integration and communal harmony.
- To inculcate spirit of unity, nationalism, brotherhood, feeling of proud to be Indian Citizen
- To facilitate the youth to know about the age-old common history and heritage, this has been instrumental for strengthening our secular and democratic fibre.
- To facilitate the youth to identify the threats and challenges posed by divisive forces in the country and develop a strategy to combat the same.
- To create an opportunity for the youth to participate and see various traditional folk and traditional cultural performances.
- To educate the youth about the core developmental issues like skills development, employment/self employment, education, health including HIV/AIDS and environment.
- To facilitate the youth to understand the developmental scenario and challenges and also to motivate them for contributing towards national development.
- To make them understand about their roles as a citizen.
- Inspire them to offer services to the nation during national emergencies such as communal riots, terrorist attacks and disasters.
